

NORWAY, MI ~ PUMPER

This pumper for Norway, MI was built on an International 4400 extended cab chassis. The body is an all aluminum structure equipped with Gortite aluminum rollup doors. The apparatus ladder storage is a slide in compartment with a rear door at the right rear of the body. The pump is a Waterous CS pump rated at 1250 GPM and is equipped with a Waterous/Pneumax 140-SP PTO CAF system. The foam proportioner is a Foam Pro 2002 injection system and is equipped with a Foam Pro Power fill system. The apparatus is equipped with (3) 1 ½" pre-connect discharges, (4) 2 ½" discharges, (1) 1" booster hose reel discharge and a 3" deluge discharge. The water tank is a Pro Poly 1000 gallon water/30 gallon foam "T" tank. The warning lights are all Code 3 LED including the LED taillight cluster. The apparatus is equipped with a Honda 5000-watt gas powered generator which supplies power to (2) Akron 1000-watt telescoping lights and a Hannay cable reel w/Akron junction box. Realwheels stainless steel wheel simulators and aluminum diamond plate cab step and fuel tank covers finish this great looking and highly functional apparatus.
